FINANCIAL AND COMMERCIAL.

TUESDAY, March 11-6 P. M. the following is a comparative statement of the exports (exclusive of specie) from New York to foreign ports for the week ending March 11 and since January 1 :--

Since January 1....\$15,508,980 26,799,462 25,905,496 The statement shows a falling off, as compared with last year, and places the balance for the time, however, the opening of navigation will impart fresh activity to the breadstuffs move-

The amount of food which is stored Chicago is beyond all precedent, and the other depots for Western produce-Toledo Buffalo, &c .- are choked up in the same way. The railroads between this and the West, working every car they have to their utmost capacity, seem to make no impression upon the piles of stuff which

The money market is comfortable; call loans are quoted 6 a 7 per cent, and paper of the highest grade at the same rate. The victories of our rmies impart confidence to capitalists, and bring away through lears regarding this morning in banks effected their exchanges this morning in banks effected their exchanges this morning in Sub-Treasury certificates, and the Sub-Treasurer has been busy all day signing his name to these

Foreign exchange is dull and weak. Bankers' bills are held at 112 a 1/2 for sterling, and 5.021/2 a 5.071/2 for francs, at which quotations there is a very light demand. Many importers feel satisfied that in the course of a few days we shall begin to export Southern produce in quantities sufficient to exercise a decided effect upon the foreign exchange market. Gold was expected to advance to-day, but fell back on the news from the army. The probability is, however, that the speculators will succeed in putting up the price of gold again to 3 a 4 per cent premium.

The stock market was very strong to-day, and

prices were uniformly higher. The public are buying stocks freely, and there is every indication that we are on the eve of a period of remarkable activity on the Stock Exchange. The news of the occupation of Manassas was received at the first board, and led to a large increase of purchases of government stocks and other first class securities. It is hardly probable that the stock market has yet begun to feel the effect of the enormous disburseents which are about to be made by government. But the effect of this unparalleled addition to the idle capital of Wall street is being anticipated to some extent by the jobbers of the street and the board and shrewd operators are laying in a stock of Erie and Central and governments and Western shares, so as to be prepared for coming events. If, as some speculators seem to anticipate, peace is reestablished this spring, nothing has ever been witnessed on this continent which will compare with the speculative excitement that may be expected in Wall street. The country is full of money, and every one will have money to invest; trade with the South will reopen, and the resources of New York will be taxed to the utmost to effect the exchanges which will at once be effected between the Southern and Western country and the rest of the world. We have not railways enough to do the business that will spring up. And with the re-storation of the authority of the Union will revive confidence, at home and abroad, in public securities; foreigners will be eager to purchase the stocks which they sold in the day of our gloom and our trial, and domestic capital, which, for safety's sake, has been lying hoarded, will flow once more in the accustomed channels. At the morning board to-day the market was buoyant, and a very large business was done, with a general improvement in prices. In the afternoon the advance of the day led to some sales by parties who were anxious to realize profits, and in some instances stocks were lower. But, as a whole the market was strong throughout the day and ed very firm. Comparing the closing prices of the day with those of yesterday, we note an advance of 1/4 in registered sixes, and 1/4 in coupons; 1½ in Virginias, 1½ in Tennessees, 1 in Missouris. 1 in Pacific Mail, ½ in Central, ½ in Erie, ½ in preferred, ¼ in Hudson, ¼ in Harlem, 1½ in Reading, 1% in Michigan Central, ¼ in Michigan nois Central, % in Galena, % in Toledo, % in Rock Island, and % in Chicago, Burlington and Quincy. The following were the closing quotations of the day:-United States 6's, registered, 1881, 93 a ½; do. 6's, coupon, 1881, 93 a ½; do. 5's, coupon, 1874, 85¼ a ½; Indiana 5's, 78 a ½; Virginia 6's, 621/2 a 64; Tennessee 6's, 61% a 62; North Carolina 6's, 69 a 70; Missouri 6's, 541/4 a 1/5; Pacific Mail, 951/4 a 1/4; New York Central, 841/4 a 1/2; Erie, 36 a 1/4; do. preferred, 601/4 a 1/4; Hudson River, 371/4 a 1/4; Harlem, 131/4 a 1/4; do. preferred, 311/4 a 3/4; Reading, 433/4 a 3/4; Michigan Central, 57% a 58; Michigan Southern and Northern Indiana, 241/4 a 1/4; do. guaranteed, 49 a 1/4; Panama, 120 a 121; Illinois Central, 66 a 1/4; Galena and Chicago, 69% a 1/4; Cleveland and Toledo, 471/4 a %; Chicago and Rock Island, 57½ a 3/6; Chicago, Burlington and Quincy, 65 a ½; Milwaukee and Prairie du Chien, 22 a 1/2; Cleveland, Columbus and Cincinnati, 1091/4 a 110; New York Central 7's, 1876, 103 a 104; Erie third mortgage bonds, 93 a 94; Michigan Central 8's, first mortgage, 103 a 1/4;

Illinois Central bonds, 7's, 93 a 1/4; gold, 101% a 3/4. It is curious to refer, in connection with the forthcoming issue of inconvertible Treasury notes, to the following extract from a treatise on Political Economy, published eleven years ago by Mr. George Opdyke, at present Mayor of New York Mr. Opdyke was one of those clear sighted economists who discerned the evils of our banking system, and of our mixed and incongruous currency. He suggested as a remedy the issue of onvertible government paper, in the ratio of ten dollars for every inhabitant of the country. At the time he put forth these views they had few adherents. Events have now brought the entire public upon his platform, and we are going to test practically the soundness of his theories. It is worth remark that, if his system were adopted, the issue of legal tender notes by government would be more than double the amount now proposed. The following is the extract:-

The following is the extract:—

I desire to present the outlines of a plan of inconvertible paper money, by the means of which, it is believed, all that is useful in coin and convertible paper money may be secured, and all that is objectionable in each avoided, except so far as coin may be required in our external commerce and in the circulation of fractional parts of a dollar. The plan I would suggest may be thus set forth—Lat the constitution of the United States be amended by the insertion of previsions something like the following—First, that the production and emission of convertible paper money in the United States be henceforth interdicted, and the amount thereof already emitted and now in use withdrawn from the channels of circulation and suppressed.** Secondly, that the existing clause in the constitution which establishes gold and silver coins as the standard of value and as the legal tender in payment of dobts be so modified us to include the money issued under and by authority of the ensuing clause—namely, thirdly, that the government of the United States, in payment of its current expenses, issue annually, for ten consecutive years, \$25,000,000 of paper money, to be of the similitude of bank notes, and of various denominations, ranging from \$1 to \$1,000. That at the expiration of ten years the population of the United States be ascertained, and such additional issue of this mency thon made as will render the aggregate emission, when expressed in dollars, equal to fen times the whole number of inhabitants, and that every year thereafter the whole emission be equal to ten times the whole number of inhabitants will uniformly stand as ton to one.

The business of the Sub-Treasury was as follows

been duly installed as Deputy Assistant Treasurer

of the United States. Mr. Field is a gentleman of ability, and the press are under obligations to him for many favors.

The exchanges at the Bank Clearing House this morning were \$18,292,586 63, and the balances \$1,275,896 75.

The statement of the Philadelphia banks for the ast two weeks compare as follows:-

By the North American, at Portland, we have advices from England to the 28th of February—one day later. Consols were reported at 93% a 93%, which is 1/2 lower than the previous report. The sales of cotton at Liverpool for the week ending the evening of the 27th ult. were 54,000 bales, and on the 28th 10,000, prices closing firmly and un-changed. Breadstuffs were dull and steady, and provisions quiet.

The following is a statement of the earnings of the Erie road for the first four months of the pre. sent fiscal year:-

Total......\$2.860,931 1,948,914, 912,017
The increase has been very mearly at the rate of 50 per cent. A similar rate of increase for the last two months of the half year would give a total of earnings for six months of \$4.136,493 56; the earnings of the road for February, 1861, being \$991,100 99; for March, \$459,-737 66. We presume the per centage of increase for the first four months of the half year will be more than maintained by the last two; if so, the earnings of the road are at the rate of \$8,772,487 22 for the year. The highest previous earnings for any one year were those of

THE BALL SEASON.

THE BALL SEASON.

TELLOW CITIZENS—A COMMITTEE OF PATRIOTIC citizens have had the kindness to give the aged defenders of our country, the Veterans of the War of 1812, 1813 and 1814, grand complimentary soirce, in military style, at the Apollo, on Thursday, March 13. The net proceeds to be given to the sick and needy members of the corps—some of them destitute of a home, and some in the alms house. Go patriots of the present day, and fill the house to overflowing, and cause them to rejoice that they have yet friends who appreciate their services against a powerful enemy, and saved the country, whose freedom the young are now enjoying. Their old companion in arms, General Winnied Scott, will be present, if health permits, to have a hearty shake of their hands once more before partny, for another and a better world. The following gentleman compose the committee:—
Str.Alderman Joseph N. Barnes, General F. A. Tallmadge, Councliman George A. Barney, ext-to-uncliman John Van Tine, ex-Alderman Giffith, from whom tickets may be obtained; at General II. Raymond's Bounty Land Olice, No. 4 City Hall place, and at the Apollo, on the cay and evening of the soirce.
